Holt county has four tickets in the field—republican, democrat, peoples independent and prohibition. It is small wonder that the campaign there is rather exciting.

It is stated that Czolgosz will pay the penalty for murdering President McKinley next Tuesday morning at 7 o'clock. If all anarchy and all murderous desires in the country could go out with his life what a fine thing it would be. It is to be hoped that it will prevent many from living his life.

Mr. Bryan proposes to swing Nebraska back in line if he can do so by personal campaigning and will devote his time to this state from now until election. If he is as successful as he is said to have been in Iowa it may be expected that the republican majority will be materially increased.

The Third Baptist church of Owensboro, Kentucky, while looking after the spiritual welfare of its members, proposes to be paid for doing so in a new and novel manner. The church has recently insured the lives of twenty of its young men and will pay the amount in the event of the death of any of them.

the church. If the new scheme comes into general usage it may be expected that the church sociable will be partially retired as a means of raising money for church expenses.

The situation confronting the vegetarian may necessarily be considered quite grave when it is known that squash are imported from Wisconsin and that proprietors of the canning factories report that canned tomatoes and catsup will be a decidedly minus quantity this winter. Fortunately there was a good wheat crop and flour has not yet gone "out of sight" and the people may live if they have the price, and most of them have that in this prosperous era. This situation does not confront Nebraska alone, but most of the states of the middle west are wrestling with the same condition.

The fusionists are desperate and will swing Nebraska from its stand for republican prosperity if they can do so. It will stand the republicans in hand to meet their assault with vigor and keep the state in line with national policies. They have a good ticket to fight for and all should be awake and active. The fusionists are preparing to celebrate their victory, if they secure one, as a protest against national policies and as an endorsement of Mr. Bryan and the policies he represents. Their anxiety to weave Bartley into the campaign is indicative of desperation. They lack campaign material and anything, from events that are past to idle prophecies as to the future, will be employed with vigor. Anything to confuse the voter and detract from the popularity of Judge Sedgwick will be worked without mercy.

Now that Hon. Emilio Aguinaldo, former dictator of the Philippines, has branded as a lie that the old campaign story about Dewey and Wildman going back on an agreement made with him and which was used exhaustively last year, it is to be presumed that the anti-imperialists and editors will present their profoundest apologies to the American people. It was a flimsy sort of a makeshift at best to question the truth and veracity of one of America's foremost sea fighters and a leading diplomat and attempt to believe and make the people believe that America's greatest enemy in recent years was the only living exponent of truth and liberty, but the exigencies of the campaign probably offered an excuse that was passable. However, that the truth is known and the smoke of conflict has cleared and an apology and a resolve never to do it again would be very proper.
